Receiving Package and Mail Notifications

Unfortunately, Postal Palm Springs cannot guarantee successful receipt of package and mail notifications. Due to the large volume of text and email alerts sent many carriers and email providers consider these alerts to be spam and either route the message to your spam or block the message completely. One way you can help ensure you receive our messages is to add auto-notify@justnotify.me to your safe list and address book. More information is available at www.justnotify.me
